CERTIFICATES

1st Prize, Young Developer 2024 – VNSGU

Awarded 1st prize for developing 'ByteBuddy', an innovative app focused on smart learning and collaboration, demonstrating advanced technical skills and creative problem-solving.

LANGUAGES

English   Fluent

SUMMARY

A dedicated software engineer with expertise in Android development and full-stack solutions. Proven track record in creating innovative, user-focused applications like ByteBuddy and Tech Savvy BIMS. Passionate about delivering high-performance, scalable digital solutions.

EXPERIENCE

Android Developer

myCampus   📅 02/2023 - 04/2024   📍 Delhi (Remote)

One of the most popular company which brings an Online Campus for Schools

- Contributed to one of the leading platforms revolutionizing online campuses for schools.
- Spearheaded the design and development of a polished, high-performance Android app with a professional user interface. Additionally, developed a robust billing app to streamline payment gateway management.

PROJECTS

Online SAAS Based Barcode Inventory Management System

📅 06/2024 - 07/2024   📍 Ankleshwar

🔗 https://admin.najmikitchenware.com

Full Inventory management system with custom barcode printing, scanning and all.

- **Comprehensive Inventory Management**: Developed a robust Barcode Inventory Management System (BIMS) with real-time tracking, automated stock management, and detailed reporting.
- **SaaS Transformation**: Successfully converted the BIMS into a SaaS product, incorporating multi-tenancy, custom fields, and audit logging to cater to diverse organizational needs.
- **User Roles and Permissions**: Implemented an advanced user management system with role-based access for admins, workers, and organizations, enhancing security and control over inventory operations.

ByteBuddy - The EduCollab Center

📅 01/2024 - 02/2024   📍 Bharuch

🔗 https://play.google.com/store/apps/details?id=com.shakilpatel.notesapp

A Complete Solution for IT Students and Professionals

- **Smart Learning Platform**: Developed ByteBuddy, an innovative app that combines course materials, notes, and smart features like note translation, text-to-speech, and personalized learning paths.
- **Collaborative Learning Environment**: Integrated a Stack Overflow-like FAQ module and a one-to-one chat system, enabling users to ask questions, share knowledge, and collaborate in real-time.
- **User-Centric Design**: Focused on creating an intuitive user interface with advanced features, including note uploading, saving, and sharing, to enhance the overall learning experience.

Gi1 Prime App

📅 03/2024 - 04/2024   📍 Vadodara

🔗 https://play.google.com/store/apps/details?id=com.gi1.gi1infoapp

Developed full fledged prime version of Super App Startup

- 'Gi1,' the world's 1st super app, embark on a revolutionary digital journey. Uniting top-tier platforms, it serves as the ultimate mall of apps, offering a comprehensive A-Z selection across industries and categories. Elevate your convenience and access all you need in a single, sophisticated app—'Gi1,' where innovation meets seamless functionality.

SmugLinks

📅 12/2023 - 01/2024   📍 Vadodara

🔗 https://play.google.com/store/apps/details?id=com.smuglinks

A great linking platform for social persons

- **Customized Digital Presence**: Developed a platform for creating personalized links and QR codes, allowing users to showcase their brand or identity uniquely.
- **Integrated Offline and Online**: Introduced QR stickers for physical spaces, bridging the gap between offline locations and online content seamlessly.
- **Affordable and Supportive**: Offered budget-friendly pricing plans with 24/7 email support, ensuring users have access to assistance and quality services.
